Other news:

On 2 November, we held an ‘Outreach Event’ in the Market Place, with the theme ‘The Carbon Footprint of the Military’. We had a stall with information and gave out leaflets.

There was a gratifying response from members of the public with people expressing surprise that the military’s carbon footprint is not taken into consideration by the UN when compiling their figures for COP 26. Our petition was signed by a further 25 people and 10 people used one of our ‘War Causes Climate Change : Climate Change Causes War’ postcards to write a message to David Johnston. We await his response!

Happy New Year!!
